On this point we beg to reassure him. "Censure" is not the word at all. We are in earnest, terriby in earnest, and we seek to arouse public opinion, and nowhere more than at Frankfort, to the importance of prompt and vigorous action. We undertake to "censure" no one. The "application of censure" belongs to the people, and our office ends with keeping the people advised. We have commended Col.Chenoweth, Governor Johnson and prompts us. We have commended Col. The Starvea Presence.

When Geonor Holland, the good old actor of New York, died, and Christian burial was denied him by the cau-can pastor of his church, the Reys Mr. Sanxis. tor of his church, the Reys Mr. Sanke, the surviving actors of the cify imagurated a movement for the raising of a fund for the support of his family, who were left by the deceased husband and father with a much smaller amount of money than they deserve. The fund is likely to reach, it is said, the sum of twenty thousand dolars, which will place the widow and her obliders beyond the reach of want for children beyond the reach of want for actors, who, according to the creed of the Rev. Mr. Sabine, are all doomed to be d-dashed. Not long after George Hol-LAND died, the Rev. Mr. WALSH, an old city missionary, died of starvation in New York. He left no wife to perish in the same way, but he did leave four children who would have starved but for the

General SMITH says: "The State assumes the responsibility for the safe keeping and proper application of the funds thus deposited." And this is the sensible view. The funds cannot be applied, if not kept; and, if the State assumes nsibility beyond a point, it follows does assume responsibility up to

Government is performed? The State assumes a responsibility in favor of the comparative few who chose to insure at the ness, cannot or will not insure, and it is not just. Few persons who do not inform themselves would conjecture the extent of this responsibility. The system has been in vogue only a few years in New York and the deposit of one company is already \$1,162,200, and if not another policy is registered the amount must speedily quad-ruple. Very wisely does General SMITH out it when he says in his notes: "In case
